PROFILE

As a recent graduate with a B.Tech degree in Production Engineering, I am passionate about pursuing a career in frontend development. I possess a strong foundation in HTML, CSS, JavaScript, and React.js, and I am eager to apply my technical skills to create engaging and user-friendly web experiences. With a keen eye for detail and a problem-solving mindset, I strive to contribute to the development of innovative and visually appealing applications. My dedication to continuous learning and my ability to collaborate effectively make me a valuable asset to any frontend development team.

PROJECTS

Interactive Rating Component

- View the optimal layout for the app depending on their device's screen size
- See hover states for all interactive elements on the page
- Select and submit a number rating
- See the "Thank you" card state after submitting a rating

Live Demo :

https://shiba-tatsuya.github.io/interactive_rating_component/

Youtube Clone

- Search for YouTube videos by entering keywords in the search bar.
- Display a list of video results with thumbnails and relevant information.
- Click on a video to watch it in the player.
- Responsive design that adapts to different screen sizes.
- Optimized video loading and playback experience

Live Demo :
